

# GRAND ISLAND MODELERS PRESENTS

# THE 2009 FUN FLY.

Airshows featuring Pete Rosas ▲  
and the F.B.I. (Flying boys of Iowa)

## A SPECTACULAR WEEKEND OF 3D AEROBATICS • WARBIRDS • HELICOPTERS • ELECTRICS & MORE

On June 20, 2009, The Grand Island Modelers is hosting the largest RC fun-fly in Central Nebraska... often referred to as the "Big Bird".

This AMA-sanctioned fun-fly promises to be one of the years best events, featuring over 100 aircraft flown by more than 70 pilots from across the midwest and as far as Texas.

Those traveling by RV will enjoy spacious grass parking for primitive on-site camping. The Friday evening preceding the event will feature a cookout tailored for pilots and their families.

Pilot registration is scheduled for Saturday morning between 8am-10am, preceding the Grand Opening Ceremony. Flying will begin both days at 8am (or when the first pilot taxis the runway).

Spectators walking the flight line can expect to see a wide variety of aircraft including: biplanes, war birds, exciting 3D-aerobats, helies, and civilian aircraft including GeeBees and Cubs.

Two air shows are scheduled each day, one at 11:30am and the other at 2:00pm. Throughout the weekend, aircraft will engage in aerobatics, pattern, and scale events, among other flying categories – including airshows by Pete Rosas, The midwest's premiere 3D-Aerobatic pilot.

Lunch will be hosted at the clubhouse by the Grand Island Lady Modelers. Choose to relax in the air-conditioning, or outside on the deck while enjoying the action.

There's even a free shuttle service provided by "Prince of the Road" to transport families and spectators to and from the Conestoga Mall and area hotels.
